

# HANESHE

Creating New Beginnings  
in the land and its peoples

Janvier

HANESHE LP IS AN INDIGENOUS COMPANY OFFERING A COMPREHENSIVE RANGE OF ENVIRONMENTAL SERVICES FOR THE OIL AND GAS, MINING, AND INFRASTRUCTURE SECTORS.

## SERVICES

**Environmental Planning and Permitting Services:** we provide fully integrated environmental and ground engineering\* services to meet your project's regulatory requirements and environmental goals. We help our clients minimize risk towards achieving sustainable development.

**Strategic Planning and Infrastructure:** we work in collaboration with communities to assess infrastructure needs, evaluate options and identify funding sources. From transportation and land development to water and waste management, we provide the environmental and ground engineering\* services needed for project approval, construction and operation.

**Reclamation and Remediation:** from site assessment to reclamation certification, our team works closely with clients to overcome environmental challenges through site-specific mitigation measures and implementation.

**Indigenous Engagement and Consultation:** engagement with Indigenous communities involves gaining trust and building understanding by sharing information in an honest, respectful and meaningful way. We offer our clients clear pathways for engaging with the communities connected to their projects.

**Indigenous Participation and Training:** we assist our clients in maximizing opportunities for Indigenous communities and businesses by developing project-specific participation plans.

## ABOUT HANESHE

Haneshe LP is a majority Indigenous-owned environmental services firm based in Cold Lake First Nations.

Golder is a minority shareholder providing specialized technical expertise and project management services as local capability and capacity grows.

Haneshe integrates technical expertise with Indigenous knowledge and values to deliver sustainable, innovative solutions to our clients.

We work collaboratively with Indigenous people and communities in meaningful and ethical partnerships to:

- Provide reliable and cost-effective environmental services;
- Maximize opportunities for Indigenous peoples by working with communities and industry clients to facilitate the participation and employment of local First Nations community members on resource development projects;
- Develop training programs to increase capacity for Indigenous employment opportunities on major resource development projects;
- Work with Indigenous communities to develop long-term employment opportunities that lead to careers in environmental services; and
- Build a strong health and safety culture for sustainable business and employment relationships.

The goal is to help position Indigenous community members for future employment and career opportunities, and to help build capacity within communities to provide environmental consulting services.
